Floral Regeneration

Fauna derives from the name of a Roman goddess, but the handiest way to remember the difference between flora and fauna is that flora sounds like flowers, which are part of the plant world; fauna, however, sounds like "fawn," and fawns are part of the animal kingdom.

Changing attitude to ageing into various form, understanding the segmentation.

The range has pastel colors, muted floral print accentuated with marble rivets which gives it soft, flowery and subtle look.

Emblem

Although brights prevail as the most important message of the season, bold accents are underpinned by nuanced neutrals such as plaster. They have a slight nod to retro influencers, but these tones take on a more contemporary and urban feel.

Stamp motif depicts the individuality of the products with a subtle touch of the V.T. leather.

Doodle

Doodles are simple drawings that can have concrete representational meaning or may just be composed of random and abstract lines. Here in this range we have used small quirky words to describe the everyday fashion digitally printed overlapping the zippers. The hues of powder blue and macaroon cream makes the range fluffier and sporty.

HARMONY

Urbane

The products are sophisticated, polished, and refined. Spend enough time in an urban setting--take one of these favourite slgs to the concerts and museums, spending time in crowds--and then you'll be urbane too. urbane assumes that everyone sees the city from the roof deck of their penthouse apartment, drinking champagne and exchanging bon mots with friends. Add a Cole Porter soundtrack and the image is complete. The super stretchy fabric with dual coloured zipper adding an element this is otherwise chic products.

Nile

Depicting the people embark on small boats, and one rows while the other bails out water. Then they are violently tossed about in the raging rapids. At length they reach the narrower channels and, swept along by the whole force of the river, they control the rushing boat by hand and plunge head downward to the great terror of the onlookers ! This range is inspired by the river Nile with its muted slate and undertone of blue, classic and pristine silhouette with linear etched surface .

The

GOTH glow

Glowing accents will be the key in 2020, evolving from the trend for high visibility neon-colour that have emerged last season. Use of functional elements like various fastening to give the designs an active-focused feel.

The leather-like PU has given the products more activewear feel. Consider ways of repurposing the obvious salvaged feet to the range. The design has brought the street-chic back to the trend-fore.
